PROFESSIONAL SUMMARY

Results-driven Software Developer with hands-on experience in web, mobile, and system development. Strong background in C#, REST APIs, database systems, and cloud-based workflows, with proven ability to deliver scalable solutions across real-world applications. Passionate about data integrity, system security, and continuous improvement through feedback and iteration.

TECHNICAL SKILLS

Backend Development:

C# (MVC, MVP, MVVM), JavaScript(basic), Python (basic), REST APIs

Web Development:

Web Technologies: WordPress, HTML5, CSS3, jQuery, ReactJS, Angular

WordPress (Elementor), Website Customization, Theme Editing, Plugin Usage

Database Engineer:

Relational Database Management Systems (SQL)

Transactional, Snapshot and Mirror database backup and recovery set up

Basic cloud exposure, deployment workflows, Microsoft Database SQL, Firebase (Basic Database Handling)

Tools & Development Environment:

Visual Studio Code and Community, Git, GitHub, Cursor AI, Google Antigravity, OpenAI codex, and Figma Make

AI & Automation:

AI-assisted website building, prompt engineering, workflow automation, AI-assisted debugging and code generation

CORE SKILLS:

Project Manager, Backend Development, Database Engineer, Web Developer, Software Tester, Uses Software Development Life Cycle Model, System Maintenance, Database Optimization, Version Controls (Github, Web Hosting), Debugging & Issue Fixing, UI Layout Implementation.

Communication & Operations Tools

- WhatsApp
- Gmail / Email Management
- Dialpad
- Zoom
- Google Meet
- Microsoft Teams

Project & Task Management

- ClickUp
- Trello
- GitHub Projects

Productivity Tools

- Microsoft Word
- Microsoft Excel
- Microsoft PowerPoint
- Google Docs
- Google Sheets
- Google Drive
- Canva

PROFESSIONAL EXPERIENCE

Internship Full Stack Developer - ActiVerse Incorporation (2025 – 2026)

- Developed and maintained WordPress websites for business clients.
- Assisted in optimizing content and improving user experience.
- Supported sales initiatives through technical demonstrations and client interaction.
- Collaborated with team members to update and manage knowledge base systems.
- Develop APIs, Front-end prototypes, SQL and work with Database Manager for backups.

Backend Developer & API Developer - Motodisk.com (2025 – 2026)

- Develop APIs, Backend using OOP

System Developer (Freelance)

Accounts Payable Management System (APMS) (2025 – 2026)

- Designed and developed a system to automate invoice processing.
- Improved financial workflow efficiency and reduced manual errors.
- Integrated database solutions for accurate data handling and reporting.

Game Tester (2025 – 2026)

- Conducted gameplay testing and recorded MP4 sessions for AI training.
- Identified bugs and usability issues to improve system performance.
- Documented findings and collaborated with developers for improvements.

System Developer (Freelance)

Hestia (VAWC Case Management System) (2024 – 2025)

- Developed a case filing and management system for VAWC cases
- Built features for case tracking, reporting, and secure data handling
- Improved accessibility and usability across desktop and mobile platforms
- Focused on data security and integrity of sensitive case information
- System Developer

Freelance Web Developer

Client-Based Projects | 2024 – 2026

- Developed and customized responsive website layouts and UI components for business clients
- Implemented modern front-end designs, responsive interfaces, and structured web workflows
- Improved website usability, accessibility, and overall client-facing presentation
- Worked with CMS customization, UI implementation, and responsive web technologies

Projects

- The Studio B
- PR Property Platform

System Developer (Freelance)

Tuluyan Application (2023 – 2024)

- Developed a mobile application for rental and boarding management
- Implemented booking, listing, and user management features
- Enhanced user experience and operational efficiency

System Developer (Freelance)

3 Degree Coffee Shop POS | Aug 2022 – Dec 2022

- Developed a POS system for sales and inventory tracking
- Automated reporting and improved operational workflow
- Enhanced transaction accuracy and efficiency

EDUCATION

Saint Columban College – Bachelor of Science in Information Technology (2022–2025)

CERTIFICATIONS & TRAINING

- 500-Hour Internship Completion – ActiVerse Incorporation
- ITPEC - IP Certification
- Advanced Certificate in Program and Project Management (Udemy)
- Professional Diploma in Agile and Project Management (Udemy)
- Master Course in PMP - Project Management Professional (Udemy)
- MS Office Certification (Udemy)

- Complete SQL & Relational Database Management System (Udemy)
- Figma for User Interface and User Experience UI/UX Design (Udemy)
- The Complete Android & Kotlin App Development A-Z Bootcamp (Udemy)
- C# for Beginners (Udemy)
- Web Design Course for Beginners to Intermediate (Udemy)
- HTML, CSS, JavaScript, React - Online Certification Course (Udemy)
- Cyber Security Bootcamp: The Ultimate Beginner's Course (Udemy)
- HTML and CSS for Beginners from Basic to Advance (Udemy)
- Network Defense Fundamentals: Training for IT Beginners (Udemy)

ADDITIONAL INFORMATION

Quick learner with strong adaptability to modern development environments, including AI-assisted workflows. Experienced in applying structured processes to build and improve systems such as VAWC case management platforms and financial systems, with a focus on data accuracy, security, and workflow efficiency. Able to implement web and system updates effectively, support eCommerce and client-based platforms, and continuously enhance productivity through automation and AI tools.
